PLEASE ARRIVE 30 MINUTES BEFORE YOUR APPOINTMENT

VEUILLEZ ARRIVER 30 MINUTES AVANT VOTRE RENDEZ-VOUS

### Preparations and instructions

#### GENERAL PREPARATIONS FOR ALL EXAMS

Wear loose fitting clothing without buttons (sleeveless shirt / muscle shirt / shorts / joggers). Very important for X-Ray and Musculoskeletal ultrasound.

#### ABDOMEN ULTRASOUND

No eating, drinking, smoking or chewing gum 8 hours prior appointment.  
Diabetic patients can have a plain toast and sips of water an hour before the exam.  
Sips of water can be taken for medication purposes.  
Eating and drinking reduces exam sensitivity.

#### OBSTETRICAL/PELVIS ULTRASOUND

Drink 1L of water, TO BE COMPLETED 1 hour prior to appointment time.  
DO NOT URINATE.

#### TRANSRECTAL ULTRASOUND

1. Clean the rectum by applying a fleet enema or glycerin suppository 2 hours before appointment.
2. Drink 1L of water, TO BE COMPLETED 1 hour prior to appointment time. DO NOT URINATE.

#### RENAL ULTRASOUND

Drink 500 ml of water 1 hour prior to appointment time.

#### X-RAY / VASCULAR ULTRASOUND

Loose fit clothing.

#### BONE DENSITY

1. Bring a LIST of your medications
2. Do not take bone medication, calcium or multivitamin supplements 24 hours prior to the appointment.
3. Loose fit clothing without zippers, or metal attachments

#### MAMMOGRAPHY

Remove any deodorant, powder, perfume prior to appointment.

### Préparations et consignes

#### PRÉPARATION GÉNÉRALE À TOUS LES EXAMENS

Portez des vêtements amples et sans bouton (chemise sans manche/pantalons de jogging). Cela est très important pour les radiographies et les échographies musculosquelettiques.

#### ÉCHOGRAPHIE ABDOMINALE

Ne rien manger 8 heures avant l'examen, ne pas mâcher de gomme ni fumer.  
Les patients diabétiques peuvent prendre une tranche de pain nature et quelques gorgées d'eau 1 heure avant l'examen. Des gorgées d'eau peuvent être prises à des fins médicamenteuses. Cependant, il est important de noter que manger et boire peuvent réduire la sensibilité de l'examen.

#### ÉCHOGRAPHIE DU BASSIN (OBSTÉTRIQUE OU GYNÉCOLOGIQUE)

Boire 1 litre d'eau 1 heure avant l'examen. Ne pas uriner.

#### ÉCHOGRAPHIE TRANSRECTALE

1. Prendre un Fleet Enema ou suppositoire glycérine 2 heures avant l'examen.
2. Boire 20oz d'eau une heure avant l'examen. Ne pas uriner.

#### ÉCHOGRAPHIE RÉNALE

Boire 500 ml d'eau 1 heure avant l'examen.

#### RAYONS X / ÉCHOGRAPHIE VASCULAIRE

Portez des vêtements amples et sans boutons (chemise sans manche/pantalons de jogging).

#### DENSITOMÈTRE OSSEUX

1. Veuillez apporter vos médicaments.
2. Ne pas prendre des suppléments de calcium 24 heures avant l'examen.
3. Les patients sont encouragés à porter des vêtements sans fermetures éclair ou attaches métalliques.

#### MAMMOGRAPHIE

Ne pas mettre de parfum, déodorant, ni poudre.
